QUESTIONS & ANSWERS

Q: What if I want to order my finished prints differently than the way my proofs look?

A: No problem, just about anything can be ordered, **JUST ASK.**

Q: Do I have to return this Order Catalog to place an order?

A: YES!! Without this order catalog, there is no way for us to know which picture is which. If this order catalog is lost, there is a \$50 charge to print another one.

Q: How many wallets should I order?

A: Most people order at least one set of wallets from each of their favorite outfits to exchange with their friends. **PLUS** they put one wallet in each announcement being sent out.

Q: How much do I have to pay to place an order?

A: We require that you pay 1/2 of your total to place an order. But if you want to pay in full, that's OK too.

Q: How long does it take for my order to come in?

A: Most orders take about 2-3 weeks to come in.

Q: I know the photographer took more images than what's in my Proofs, can I order them?

A: Absolutely! But our minimum orders are based on retouching that number of images and because we only sell retouched images there would be a one time retouching fee of \$25/per image

Q: Do I have to order all my pictures at one time?

A: Some do, some don't! The choice is up to you. The important thing is that you place your order within the 30 day sale!! There is always a price increase after that period of time.

Q: Can I order online?

A: Yes, you can order online but only if you request this service.

Q: Is this Order Catalog mine to keep after the order is placed?

A: NO!! This catalog follows your order from start to finish. By the time your order is in, the catalog is in such disrepair that it is useless.

Q: Why is 11x14, 16x20, and 20x24 in different colors on my order page?

A: Just because I wanted to make those a different color, plus, who knows, now that you've looked at it, you may want to get a bigger size!
